To Whom It May Concern,

Letter of Recommendation for Mr. Biresh Kumar Singh

I am pleased to recommend Mr. Biresh Kumar Singh, who worked with PGAGI Consultancy Pvt. Ltd. for seven months as a Lead AI/ML Intern.

During his tenure, Biresh worked across multiple AI/ML projects and consistently demonstrated strong technical skills, problem-solving ability, and a high level of ownership. He was able to understand requirements quickly, take responsibility for his work, and deliver quality solutions within the expected timelines.

Biresh also worked directly on client projects and received positive feedback for the quality of his work, responsiveness, and ability to understand and implement requirements effectively. He was dependable in handling responsibilities independently and maintained a professional approach throughout his internship.

His willingness to learn, adaptability across different projects, and commitment to delivering results made him a valuable member of our team. I particularly appreciated his sense of ownership and ability to take tasks from requirement understanding through successful delivery.

Biresh is not only technically competent but also a strong communicator. He explains trade-offs clearly to non-technical stakeholders, delivers reproducible and well-documented code, and consistently produces prototypes that are both innovative and usable.

I therefore **strongly recommend Biresh Kumar Singh** , I believe he will approach his future engagements with the same commitment, initiative, and willingness to learn that he demonstrated during his time with PGAGI Consultancy Pvt. Ltd

Sincerely,

Shibajyoti Bhowmik
Managing Director
